EXPERIENCE

Rumen Web Page (Freelance)
December 2023 – till now.

As a key contributor to a full-stack web development project, I am currently working on a dynamic and user-friendly website for *Rumen Carnes Ahumadas*. This restaurant and producer of Texas BBQ smoked meats, based in Pucón, Chile, aims to provide a comprehensive online experience for customers. Using React JS, Tailwind, Nest JS, and MongoDB, I am developing a highly functional landing page that showcases detailed information about the restaurant with an integrated e-commerce platform where users can conveniently place delivery or take-away orders. The entire project's codebase is available on my GitHub account, showcasing my commitment to transparency and collaboration. Finally, you can see the progress of the project in the fallowing link https://rumen-reydavid1500.vercel.app/.

Entrepreneur
November 2021 – March 2023

Opened a Restaurant and Food Processing Company dedicated to preparing BBQ Texas smoked meats. As a co-owner I oversee cooking and manufacturing of different products, also selling our portfolio of frozen vacuum sealed smoked meats, cooking animal fats, clarified butter and sauces. Permanent communication with customers and suppliers. Setting up events to promote our brand and products.

Sales Engineer Industry related.
2012 - 2019

Experienced Sales Engineer in diverse industries, including welding, gas applications, and industrial materials. Successfully provided technical support, evaluated business proposals, and consistently met sales goals while increasing company revenue. Adept at building strong customer relationships and promoting new product lines. Demonstrated expertise in problem-solving and advising on high-temperature equipment and fluid control. Proficient in delivering exceptional customer service and driving sales growth. Excels in collaborating with clients and maintaining a deep understanding of product properties and applications. A results-oriented professional with a strong sales background and a commitment to achieving excellence.
